Project acronym: NEWSOL

Project full title: NEW StOrage Latent and sensible concept for high efficient CSP plants

Deliverable D1.1 - Project handbook

ABSTRACT

In this deliverable the project handbook of NEWSOL project is presented. This information will be essential to ensure a good quality of the results as it defines all the main assets regarding the execution of the project.

In this sense, in this deliverable are defined:

- Official contacts for the Coordination Team and each Partner;
- Rules for submission of official documents and Milestones verification;
- Documentation rules and templates to be used (Deliverables; Minutes and Progress Report);
- Financial Reporting rules;
- Information management (naming convention and folder structure);
- Project potential risks and risk probability;
- Information to be provided to the Innovation board on IP (Intellectual Property) issues;
- Schedule meetings for Steering Committee and General Assembly.

This deliverable represents, hence, the core of the structural organization of the project. All the relevant aspects related to the prosecution of the project are defined in this deliverable, to be followed by all partners.
