Deliverable D1.3 - Project Management Collaborative Space

ABSTRACT

In this deliverable the project management collaborative space of NEWSOL project is presented. This information will be essential to ensure that data produced during the Project can be stored and shared between the partners in an easy and secure way.

In this sense, in this deliverable are defined:

- The Collaborative Space;
- Instructions for login and access to the contents;
- Instructions for submission;
- FAQ and technical problems.

This deliverable shows, hence, the core of how this collaborative space will be used. All the relevant aspects related to the data stored are defined in this deliverable, and shall be followed by all partners.
